

# BCIT FORENSIC SCIENCE & TECHNOLOGY

## FSCT 0095 X-WAYS FORENSICS INTEGRATED COMPUTER SOFTWARE TRAINING COURSE

**Date:** July 9 – 12, 2018 (4 days)

**Time:** 08:15 – 16:30

**Cost:** \$ 2,449.00

**Location:** BCIT Downtown Vancouver  
Campus (555 Seymour St.)

### WORKSHOP DESCRIPTION

This main training course is focused on the systematic and efficient examination of computer media using our integrated computer forensics software “X-Ways Forensics”. After attending this course, you may start the [X-PERT certification](#) process (though taking the advanced course as well, is recommended).

Complete and systematic coverage of most computer forensics features in [WinHex](#) and [X-Ways Forensics](#). Hands-on exercises, simulating most aspects of the complete computer forensics process. Attendees are encouraged to immediately try newly gained insights as provided by the instructor, with sample image files. Many topics are explained along with their theoretical background (slack space, partially initialized space, how hash databases are internally structured, how deleted partitions are found automatically, with what methods X-Ways Forensics finds deleted files, etc. etc.). Other topics are forensically sound disk imaging and cloning, data recovery, search functions, dynamic filtering, report creation

- Basic knowledge of computer forensics required
- You will receive our full printed training material for this course.
- The X-Ways Forensics software is provided for the duration of the training.
- Lodging and meals not included.
